

THE PROCESS

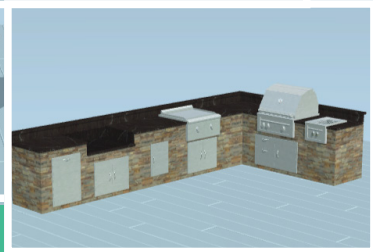

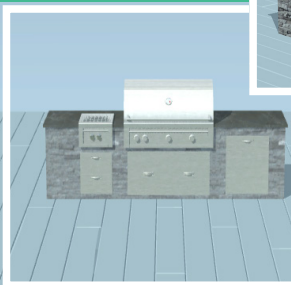

At Cedar Bridge, our staff is with you every step of the way. From inception to delivery, we've got you covered

CONSULTATION

Whether you walk in, email, or schedule an appointment, our process always begins with a quick consultation. Let us know everything that you are trying to accomplish, and we'll assist with ideas when or if necessary

DESIGN

Once we've discussed appliance choice, size, shape, and accessories, we begin with our 3D design phase. This step ensures that your final product is exactly what you envisioned! These designs are completed at our showroom and generally take 5-15 minutes depending on complexity.

FABRICATION

Once we have completed our design and receive approvals and a 50% deposit, fabrication will begin. Typical lead times vary from 2-3 days, up to 2 weeks depending on scheduling and complexity of the unit.

HOW IS IT MADE?

Frame- It starts with an incredibly strong and durable 2" aluminum tubing. Our in-house fabricator begins by making the required cuts and welds to bring the "bones" of your unit together.

Sheathing- Next, we add a layer of sheathing using a cement board. This process allows for a quick and easy stone veneer install. This step is standard and included in pricing. However, it is optional should you desire to use your own sheathing method.

COMPLETION AND DELIVERY

Once we have finished fabricating and sheathing your unit, it's ready to be picked up or delivered! Thanks to the light-weight nature of the construction, these units can be maneuvered with two people in most cases. At a small additional charge, we will deliver the unit to your property, along with your stone veneer.

WHATS NEXT?

During your consultation, you will have selected a stone veneer from one of our many lines in-store. Once delivered, your unit is ready for appliance securement and veneer install! We have in-house and 3rd party options for your veneer install as well!

As for your countertop, we have options to choose from in our showroom! Through our countertop partner, we will handle everything from invoicing, to templating, to install!

WHY CHOOSE CEDAR BRIDGE LANDSCAPE SUPPLY?

LET US CREATE THE PERFECT OUTDOOR KITCHEN FOR YOU!
